business

YOUR EXECUTIVE AIRCRAFT SPECIALIST

For you we always follow a direct path, without deviation, to our top priorities **quality** and **safety**. International Jet Management is located in Vienna, Austria at the heart of Europe, combining precision with full **customer dedication**. More than two thousand high net worth individuals place their trust in our daily business, the management of more than 30 aircraft and the organizing of worldwide private jet charters.

Based on that confidence, we also support and guide our customers wishing to sell their aircraft on the worldwide market providing them a global reach and know-how few can equal.

Take time to look at these exclusive aircraft being operated and maintained to the world's highest quality standards and appreciate our **trustworthiness**, **competence** and **flexibility** in structuring an aircraft purchase for you!

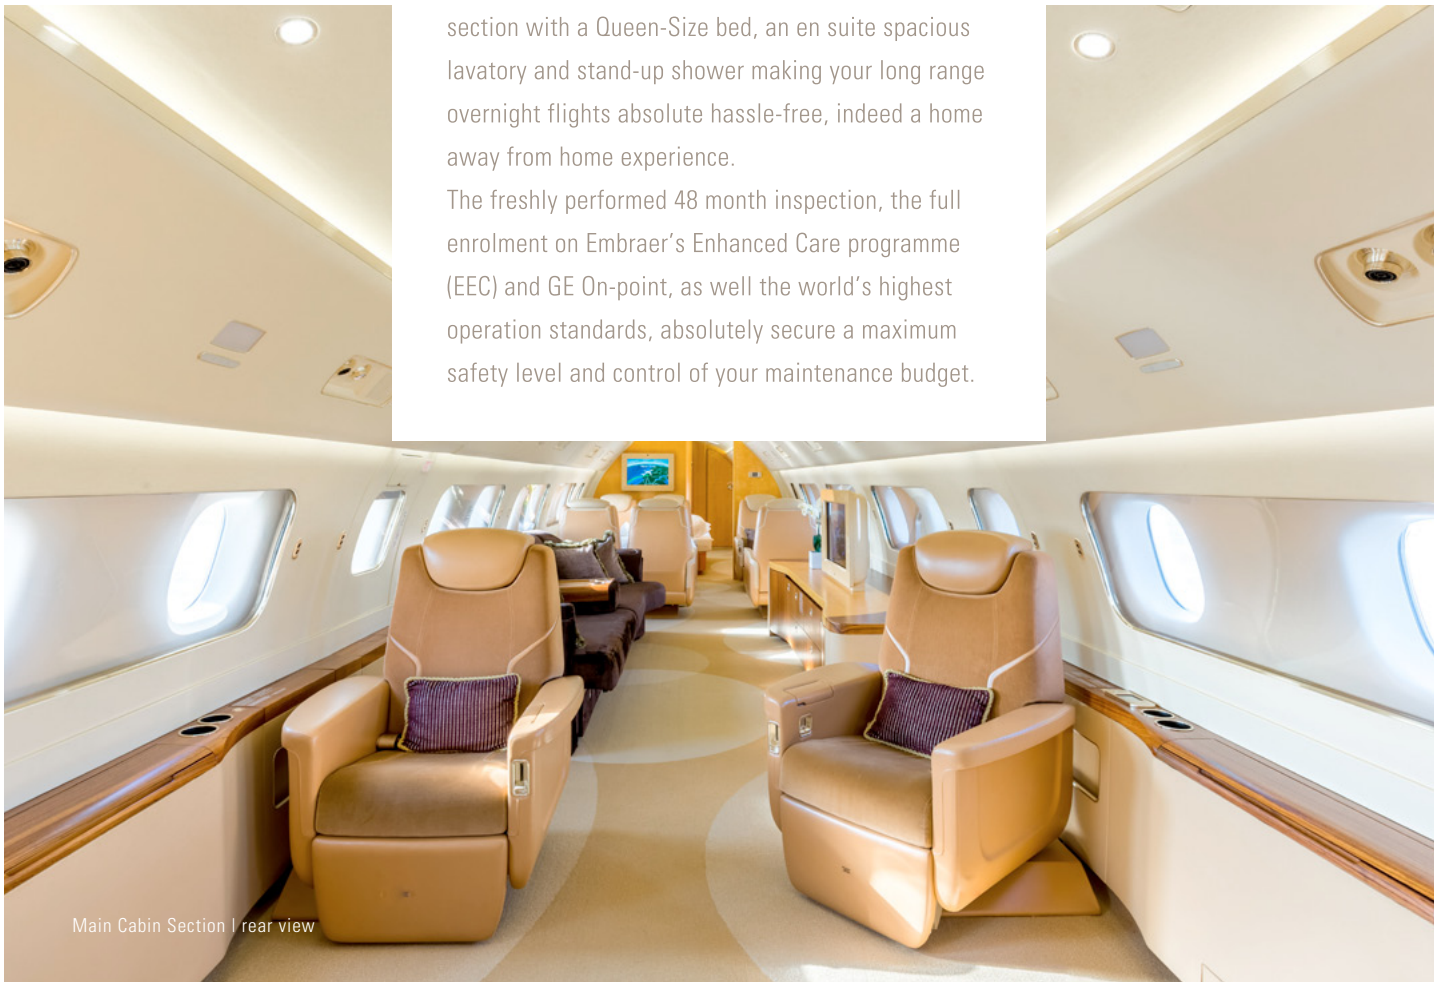

Felix Feller

founder and owner of International Jet Management

HIGH-LIGHTS

Discover the maximum convenience in travel experience. Get on-board this fantastic Wide-Body aircraft and feel at home. The aircraft offers space for up to nineteen passengers incorporating the use of two double club seats, four single club seat arrangements, plus two spacious divans, and also provides several sections that can be utilised for business, leisure and relaxation. Several LCD screen monitors (up to 32 inch) provide crystal clear entertainment. Iridium Aircell Telephone, Cabin Wi-Fi and high speed internet access will always keep you connected. The aircraft comes with additional forward and mid cabin lavatories for additional privacy. Not forgetting to mention a stunning aft bedroom section with a Queen-Size bed, an en suite spacious lavatory and stand-up shower making your long range overnight flights absolute hassle-free, indeed a home away from home experience.

The freshly performed 48 month inspection, the full enrolment on Embraer's Enhanced Care programme (EEC) and GE On-point, as well the world's highest operation standards, absolutely secure a maximum safety level and control of your maintenance budget.

Floorplan

INTERIOR CABIN

Apart from its unequalled size, the cabin's amenities epitomize indulgence in travel and in terms of comfort, functionality, and style, the resulting space is light-years beyond the standard of other interiors in its class.

The cabin is split into five distinctive zones separated by privacy doors, crew area and crew lavatory, a galley offering all the functions of a state of the art kitchen.

Full berthing reclining capabilities as well as an open and spacious mid-section coming with two single club seats, a wardrobe and passenger lavatory a curved two passenger divan to the right and a credenza including a 32 inch LCD display to the left. A double club seat-opposite to a single club seat configuration leads to the luxurious aft bedroom. The aft baggage compartment is accessible during flight via a swinging door.
